

# extremus:

## applications:-

Extremus is a high performance cubicle system which provides the specifier with a long-term solution to those areas where the problems of water, humidity or abuse may otherwise limit design flexibility.

## extremus:

### applications:-

Typical applications include areas such as swimming pools and leisure facilities where the environments are demanding but the client requires an aesthetically pleasing solution. Alternatively prisons, educational centres and public areas will all benefit from the robust nature of the extremus range, enabling them to combat the extreme conditions these environments often encounter.

### manufacture:-

Manufactured from 13mm solid grade laminate - which is totally impervious to water and extremely resistant to impact - extremus cubicles are more than able to withstand the rigours of the most testing environments.

The partitions, doors and pilasters have machine radiused, profiled edges which are then polished leaving a feel which is pleasing to the touch and alleviates the sharp edges associated with other designs.

### dimensions:-

These dimensions are typical and for guidance only as our cubicle systems are designed to suit the clients specific requirements.

Typical cubicle height is 1950mm including the adjustable leg.  
Typical ground clearance is 150mm (adjustable from 125-175mm).

	Thickness	Height	Width
Partitions	13mm	1800mm	1500mm
Doors	13mm	1800mm	600-900mm
Pilasters	13mm	1800mm	80mm (min.)

### ironmongery:-

Style and efficiency combined with the strength of aluminium construction provides the specifier with a range of fittings that complement the cubicle range. A range of security fixings can also be supplied as optional extras should the environment demand it. Supplied as standard in Satin Anodised finish, optionally fittings can also be provided in polished aluminium or powder colour coated if required.

### Manufacturer

inscape: CUBICLES & WASHROOMS,  
Lower Healey Business Park, Froom Street, Chorley, PR6 9AR

### Range Type

Extremus

### Core Material

Panels & Doors:- Solid Grade Laminate
