## volcae:

### applications:-

Working in close harmony with the designer, Volcae represents a unique system which will be equally at home in the most prestigious of buildings as it is in leisure facilities.

### manufacture:-

The partitions and doors can be manufactured from either 20mm high-pressure laminate panels using a moisture resistant core, or 13mm solid grade laminate. The fascias comprise of a strong curved aluminium profile to produce a striking visual effect.

### dimensions:-

These dimensions are typical and for guidance only as our cubicle systems are designed to suit the clients specific requirements.

Typical cubicle height is 1950mm including the adjustable leg.  
Typical ground clearance is 150mm (adjustable from 125-175mm).

	Thickness	Height	Width
Partitions	12 & 20mm	1800mm	1500mm
Doors	12 & 20mm	1790mm	600-900mm
Pilasters	40mm	1800mm	100 & 200mm

### ironmongery:-

Designed to complement the fascia's, the unique style of the furniture allows inward and outward opening cubicles to be placed side by side without affecting the external appearance.

The indicator bolts are easily operated by people of all ages and abilities whilst an optional anti-vandal security kit is available if required. The furniture is available in a range of colours and finishes to complement the multitude of laminate patterns available to the discerning customer.
