# What we do

Inscape Interiors is a market leading washroom and commercial furniture specialist, and the partner of choice for the UK leisure industry.

From our 22,000 sq ft factory in Lancashire, we manufacture a wide range of joinery and laminate furniture products, primarily for washroom and changing environments.

**Our product range includes:**

-  WC and shower cubicles
-  IPS ducts
-  Vanity units
-  Fitted furniture and storage systems
-  Lockers and bench seating

# Who we work with

We have a strong track record of supporting businesses in the leisure sector with their washroom projects.

From refurbishment and upgrade projects to completely new facilities, we have the experience and expertise to support your goals. We offer a complete service including manufacturing, delivery and installation.

**We work with construction partners or directly with owners to undertake washroom projects for:**

-  Campsites
-  Leisure centres
-  Caravan parks
-  Swimming pools
-  'Glamping' sites
-  Water parks

# Great performance in demanding environments

We manufacture and install a wide range of high-performance laminate joinery products which have been specially developed for high-footfall, high-use environments like camping and caravanning sites.

Whether it's toilet and shower blocks, locker rooms, changing facilities, or laundry areas, we produce systems and solutions manufactured to the highest specifications, able to withstand all kinds of conditions and still look outstanding.

## Washroom systems that stay at their best

Where high-humidity and water are considerations, the demands placed on cubicles, lockers and changing facilities are high.

With Inscape, you can rest assured that the products installed are more than able to cope with challenging conditions, providing a long-lasting solution that's easy to clean and maintain.

## Quality fixtures and fittings

Together with our solid grade laminate products, we provide high quality fixtures, fittings and sanitaryware that can withstand heavy use and high moisture environments.

Fittings like bolts, hinges, catches and rails have been thoroughly tried and tested for strength, performance, and durability, ensuring your campsite washroom environments stay looking great.

## Our accreditations:

Inscape Interiors has invested in meeting performance and accreditation requirements for the public sector including BREEAM compliance, and the Bog Standard 'Better toilets for pupils' initiative. The company also adheres to stringent Health & Safety policies, Quality Assurance and environmental policies and is fully CHAS approved.

# Three great solutions for camping and caravan parks

Here's a look at three Inscape solutions that are perfect for camping and caravan park washrooms, swimming pools and leisure facilities.

1

## Extremus toilet cubicles

Extremus is chosen for its durability, extended life span, chemical resistance and water resistance, making it ideal for high traffic areas.

It is designed from Solid Grade Laminate and utilises hard-wearing fittings which also benefit from corrosion and vandal resistance over an extended period.

Easy to clean and virtually maintenance free, the Extremus system also benefits from sleek and simple lines offering a contemporary look.

### The key benefits of our Extremus system include:

- ✓ Impervious to water and extremely resistant to impact
- ✓ Available in a wide range of plain colours, patterns or woodgrain effects
- ✓ Polished edges and radiused corners for user safety
- ✓ Can be supplied with additional security fixings if required

2

## Hydr8 shower cubicles, bench seating and lockers

Bringing a light and airy feel to the room, our Hydr8 shower cubicles are available in 10mm toughened glass or 12mm Solid Grade Laminate.

Our toughened glass option may be acid-etched or silk screen printed in a variety of colours, while our SGL option is available in a wide range of plain colours and patterns.

Both performance options are impervious to water and both come with SAA fixings throughout making them more than a match for wet environments. Stainless steel and powder coated fittings are also available.

Hydr8 bench seating, if required, is manufactured from a polyester powder coated steel framework with either SGL or hardwood timber slats.

### The key benefits of our Hydr8 system include:

- ✓ Impervious to water and resistant to impact
- ✓ Stainless Steel fittings as standard
- ✓ Available with or without integral bench seating
- ✓ Polished edges and radiused corners for user safety

3

## SGL vanity units

Our solid grade laminate vanity units are ideal for tougher environments where there's high usage levels over an extended period and where the likelihood of water, splashes and spillages is higher.

SGL vanity units are available in either inset or semi-recessed format and in a wide range of colours. With upstands and downstands either directly fixed or attached via aluminium extrusions, SGL vanity units are the ultimate in durability and resistance to impact and water.

### The key benefits of our SGL vanity units are:

- ✓ Inset and semi-recessed configurations
- ✓ Can be supplied pre-plumbed ready for final connection to feeds
- ✓ Range of bed heights to suit different heights / age groups
- ✓ Available with or without integral upstands
- ✓ Wide range of plain colours, pattern, and woodgrain decors available

# Our promise to you

Inscape was founded 20 years ago on the principles of collaboration, fairness, quality, and putting people first. These values are engrained in our business, and we strive always to ensure our clients get the best possible experience of working with us.

We also prioritise the environment, with our carbon reduction journey so far including Carbon Trust investment, sustainable manufacturing methods such as our biomass boiler, and electric vehicles.

## We put people first

People are at the heart of what we do. Whether it's our staff, clients, suppliers, partners, or those that ultimately use our products, we treat people with respect. We care about community.

## We're in it together, always

Our culture is one of true partnership and collaboration. We do what we say we'll do and always see the job through to the end. We succeed together.

## We care about the details

Achieving a precise, high-quality finish is essential to us. We're not completely happy until you are. When problems arise on a project, as they inevitably do, we work as a team to solve them.

## We help you make a difference

The environments we create are used by thousands of people every day and are fundamental to public health and wellbeing. Product safety and performance are paramount. Our expertise helps our clients make a difference.
